EXPERIENCE

Hothouse Inc., Remote — *Front-End Developer*

AUGUST 2018 - NOVEMBER 2018

Completed a Fintech sector visualization incorporating ReactJS, Context API, ChartJS, and TailwindCSS. Also created a MacOS/Windows desktop conversion tool with Electron to assist client in converting spreadsheet data to a proper format.

Hothouse Inc., Atlanta, GA— *Front-End Developer Intern*

MAY 2018 - AUGUST 2018 (CURRENT)

Working on several projects including the support of a hub for the FIFA World Cup and a sweepstakes site for Dish using AWS Lambda and Dynamodb.

Viget, Falls Church, VA— *Front-End Developer Apprentice*

SEPTEMBER 2017 - NOVEMBER 2017

Helped support several client websites using Craft CMS and maintained issues on Viget's website.

Presented on the CSS image-set function, Intersection Observer A.P.I., and GatsbyJS.

Viget, Falls Church, VA— *Front-End Developer Intern*

JUNE 2017 - AUGUST 2017

Collaborated with several interns to create GroundRules

Worked with our designer to understand SVGs and implementation within our codebase. Also worked on a self-project to learn ReactJS and BEM standards.

EDUCATION

Thinkful, Online — *Fullstack JS program*
